

QUARTERLY CHILL

REFRIGERATION WHEN YOU NEED IT, WHERE YOU NEED IT

THEY THINK IT'S ALL OVER – IT IS NOW. *(Nearly)*

July should now signal the end of the COVID lockdown and we sincerely hope that the monumental and sad happenings of the last 16 months are over too!

'Freedom Day' has been delayed for another four weeks as the threat of the Delta variant of COVID is still giving cause for concern. Fortunately, a very large percentage of the population have now received at least one dose of the vaccine which should make us all feel a little more safe and secure.

Even though we had a short time working from home, Team Refrigeration have not stopped throughout the pandemic, we have also been rather busy! However, we are all now back in Coolio's Den (aka the office!) where we have been busy doing what we do best – taking the heat out of all our customers' problems!

Our product range has increased to include a range of hire Modular Coldrooms. These range in size from 1.8m x 1.8m up to a whopping 2.4m x 9.6m! Delivered as a 'flat pack', they are highly engineered and run on the normal domestic power supply. Very much a 'go anywhere solution' these versatile units can be installed inside or outside buildings, on most surfaces and can even be sited upstairs! Delivered by van or small lorry by our skilled assemblers, transportation costs are drastically reduced as there is no need for a HGV!

The UK's Leading Mobile Refrigeration Company

Team Refrigeration

**Whatever your refrigeration needs, we are on call to assist
24 hours a day, 7 days a week, 365 days a year!**

A Comparison of Trailers, Refrigerated Containers and Coldrooms

Trailers

For:

- Ideal cover for emergency breakdowns. Our emergency phone line is manned 24 hours a day, 7 days a week, 365 days a year
- Ideal for short-term and long-term hires
- Mainland UK wide coverage. Delivery in 2 to 4 hours
- Easy to use – Trailers only need normal 240v domestic 16A or 13A electricity supply. No need for an electrician to install and 12 metre cable supplied
- Can be run off a 7.2Kw generator
- Can be set up either as a fridge or a freezer. Temperature range from -20°C to +15°C
- Highly portable – can be delivered nearly anywhere a 4x4 can go
- Fits in a normal size parking space
- Delivery driver sets up unit on site to your temperature requirements
- All trailers can be fitted with removal shelving
- Secure – lockable doors and fitted with wheel lock and hitch lock whilst on site

Against:

- Not at ground level, lifting required for loading
- Not suitable for more than 2 pallets
- Remote monitoring not available for trailers

Refrigerated Containers

For:

- Excellent, cost-effective long-term solution for extra capacity or planned maintenance
- Variety of capacities – 10' (4 Euro Pallets per Layer), 20' (8-10 Euro Pallets per layer) or 40' (18-20 Euro Pallets per layer)
- Limited number of 10' units can be powered by 240v Power Supply
- Mainland UK wide coverage
- Ground level loading – cages and pallets can go straight in using the ramp supplied
- All sizes have level flooring
- All our containers can be used as a fridge or a freezer. Temperature range from -35°C to +35°C
- Can be fitted with remote monitoring which will send an alert via e-mail and SMS if the temperature moves outside set values
- Humidity controlled
- All containers are highly secure
- Fitted with internal lighting and man trap alarm
- Can be used inside or outside (access dependant)

Against:

- Not the quickest option in emergency
- Specialised HGV transport with Hiab crane required
- 3 Phase electrical supply required
- Electrical engineer required to commission the unit prior to use

Modular Coldrooms

For:

- Excellent short-term and long-term option
- Wide range of available sizes from 1.8m x 1.8m to a huge 2.4m x 9.6m
- Comes as a highly engineered 'flat pack' and is installed onsite
- Can be installed virtually anywhere – inside, outside on grass and even upstairs!
- Installed by highly qualified and experienced installation teams
- Ground level loading – ideal for pallets or cages
- All sizes and capacities are powered by the normal 240v domestic 16A or 13A electricity supply
- No need for specialist transport – usually delivered by large van or small lorry
- Mainland UK wide coverage. Delivery available from next day
- Versatile temperature range from -20°C to +15°C
- Internal Lighting and man trap alarm

Against:

- Professional installation team required – takes time to organise but can be quicker than containers
- Multiple power supplies required for larger rooms which require multiple refrigeration units

Customer review

This quarter we have had the Carlsberg of all reviews on Google, from a customer we helped out earlier in the year who needed a fridge and a freezer trailer in a hurry.

"Keeping it cool with prices lower than the fridge temps!"

Our business suffered with complications regarding our fridges and freezer and were looking for an affordable, effective service. Team Refrigeration not only supplied outstanding customer service by way of Reg Anderson but also swift delivery, collection and frequent, reliable communication. This outstanding service delivery meant that any repercussions were limited and the business was able to continue to supply our large customer base.

I would highly recommend Team Refrigeration for any temperature control needs."

Everybody in the business prides themselves on our outstanding standards of customer service and nothing gives us more pleasure than hearing first-hand just how well it comes across.

Meet the team

Rachel joined us at the end of last year. Coolio's number 1 fan, she works from home and in the office. Marketing extraordinaire, Rachel has got it all when it comes to helping with our marketing.

When not at work, she likes nothing more than to chill with a good book and a glass of something cool and refreshing!

P.S Rachel also spends her free time training and running marathons – now that's pretty coooooool!!

Rachel
Team Refrigeration

Free Cool stuff

Our emergency action plan stickers are still proving to be useful and popular, so we are continuing to send these out free of charge. Please drop Coolio an email with your name and address if you would like some sent to you. We are also happy to send these out to multiple locations if that is helpful to you. Coolio - coolio@teamrefrigeration.co.uk

Coolio's Summer Cocktail

Great for those lazy days with friends out on the patio in the sun!

Pimm's Serves 3-4 5 Minutes Preparation

INGREDIENTS

200ml Pimm's No 1
600ml Lemonade
Mint Sprigs, Sliced Cucumber
Sliced Orange & Strawberries to serve

METHOD

Fill a jug with ice and pour over the Pimm's and lemonade. Give it a good stir and add the mint, cucumber, oranges and strawberries to serve.

So the kids don't get left out!

Raspberry Lemonade Slushies

Makes 6 small slushies 10 Minutes Preparation

INGREDIENTS

600g frozen Raspberries Juice of 3 Lemons
225ml soda water 9 ice cubes Honey to Taste

METHOD

Put all the ingredients into a blender or food processor and blitz until you get a smooth slush. Divide between six jars or cups to serve.

Whilst we are all eager for restrictions to be fully lifted and a firm date for 'Freedom Day', we must not let life slip by, nor wish it away. The pandemic has changed 'normal' life in so many ways, but it has definitely given an appreciation for many things we once took for granted. The sweet taste of freedom is not far away now, the sun is shining and at the time of writing this we are confident... IT'S COMING HOME!!!
