REFRIGERATION WHEN YOU NEED IT, WHERE YOU NEED IT

So the first few months of 2022 have already been and gone. It feels a little too late to wish you a Happy New Year, but I hope you are having a great start to 2022 and wish you a happy and successful year!

The winter months saw us busy as expected, supplying cold storage to everybody stocking up for the festive period. The team then had a good break over Christmas and New Year and is back, refreshed and ready for another great year. Now the rush is over, we have spent time in January planning for what we expect to be the busiest year yet. With the hope of this being a full year 'back to normal', there are lots of plans already in place for the summer and we have even taken bookings for Christmas 2022!

We have some **big plans** of our own for this year and will hopefully be able to share some great news with you in the next newsletter. There are a few projects that we are working hard on to enhance our customer experience, as we continuously strive to improve everything that we do.

CUSTOMER SERVICE AWARD FINALIST

We're really excited after hearing the news that we (Container Team, our parent company) have been selected as finalists for another award. We're still flying high after winning **Entrepreneur of the Year** at last year's National Entrepreneur Awards, so now we're on cloud nine!

We're in the running to win the **Award for Service Excellence** at the **Somerset Business Awards**. We have been shortlisted in one of their most hotly-contended categories which had over 70 entries. We have been interviewed by judge Durgan Cooper of CETSAT for the next stage of the Awards and are delighted to be selected as one of the three finalists.

This is already a massive achievement for the whole team who put in the work every single day. To win would mean so much and give recognition to the years of hard work that have gone into our customer experience. Coolio will need to get dressed in his best bib and tucker for the Awards Evening in March, when the winners will be announced.

Meet the team

John Smith – Driver

John was employed by our sister company, The Space Program, before retiring in 2020 after being a Mission Controller for their self-storage depot in Avonmouth, Bristol. When John retired, he expressed interest in becoming a delivery driver for Team Refrigeration and over the past year has gotten back in the driving seat. John said he really enjoys getting out on the road and delivering to our customers. He is always smiling and gets great feedback on his kindness and willingness to help.

Thank you John!

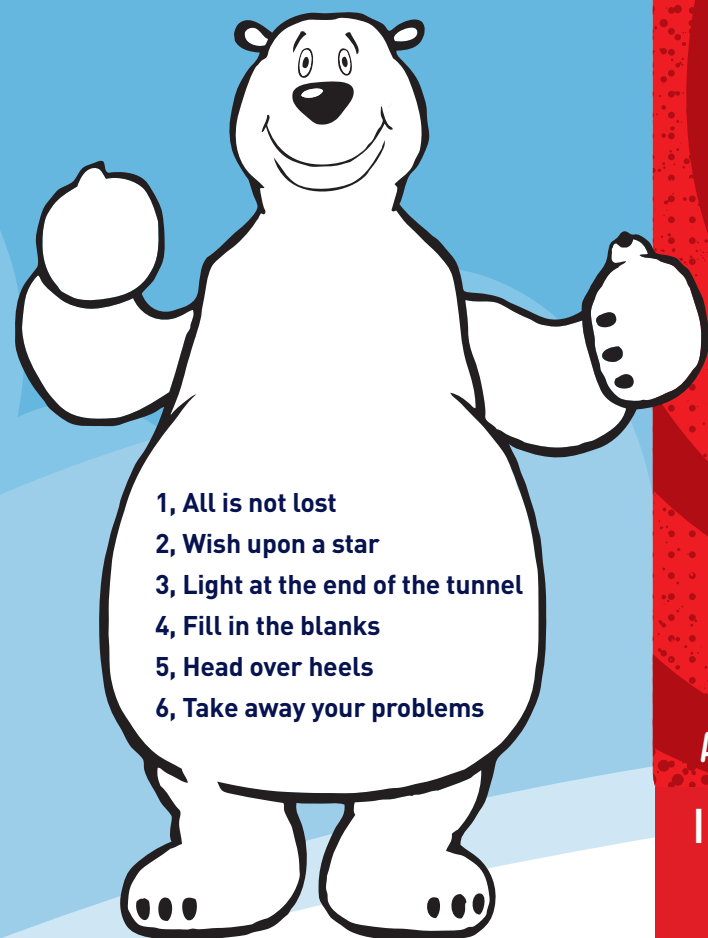

John
