

# THE **QUARTERLY CHILL**

REFRIGERATION **WHEN YOU NEED IT**, WHERE YOU NEED IT

## What a summer!

Between the heat waves and the downpours, Coolio and his team have still been out in all weathers delivering trailers to customers in need!

Whether it's an emergency call-out late on a Saturday night or a booking to keep drinks cool at your wedding, Team Refrigeration is here for you – 'refrigeration, when you need it, where you need it'! We strive to get your emergency trailer to you within 4 hours of your booking being confirmed.

**Team**  
**Refrigeration**

**Meet our new team members! We are thrilled to have Mollie, Laila and Wayne join us to help with the continually growing number of clients that need to keep cool.**

## MOLLIE

Cool, calm and collected, Mollie has worked in customer service for over 10 years and is well-equipped to help with all your refrigeration needs. Mollie's bubbly personality often brings unexpected giggles to the team. When Mollie isn't helping Coolio, you'll find her lending a helping hand to others around her. At the weekends, you will find her at a gig or festival living life to the fullest.

## LAILA

Laila joined the team in May 2023 to provide amazing customer service, having spent the last six years working at a major hardware and tools company. Since joining, Laila is enjoying her time being part of Team Refrigeration and having a laugh along the way – her words, not ours! In Laila's free time, she loves listening to music, and folding 3D origami or spending time with her partner and friends.

## WAYNE

Wayne started his career in the Army at the age of sixteen and spent twelve years there before leaving with an exemplary record. Prior to joining Team Refrigeration in May 2023, Wayne worked at The University of Buckingham for several years. Outside of work, Wayne enjoys watching rugby and is an avid supporter of Northampton Saints. When not cheering on his team you might find him clay pigeon shooting for recreation and competition, exploring new travel destinations, or undertaking a variety of DIY projects around the home and garden.

# COOLIO'S TOP TIPS

- When hiring a refrigerated trailer or container make sure the doors are only open for as long as necessary. This will avoid the unit icing up and not maintaining temperature.
- All our trailers can come with shelving at no extra cost all you need to do is advise your preference.
- When filling your trailer with stock ensure you do not overfill and block the fan as this will cause the trailer to not maintain temperature and ice up.

# COOLIO'S SUMMER COCKTAIL

## INGREDIENTS

45ml Vodka  
30ml Apple juice  
5ml Elderflower cordial  
10ml fresh lime juice  
Apple slice to garnish

## DIRECTIONS

Pour the grenadine into the base of a tall glass and set aside. Fill a cocktail shaker with ice and add the tequila, triple sec and fruit juices. Shake until the outside of the shaker feels cold. Add a few ice cubes to the serving glass then carefully double strain the cocktail into it, trying not to disturb the grenadine layer too much. Add more ice if needed to fill the glass then garnish with a cherry on a stick or cocktail umbrella.

*Tequila*  
**SUNRISE**

## Well, where did that first half of the year go?!

With summer in full swing (apparently!) Team Refrigeration are looking forward to keeping all our customers cool for the remainder of the warm weather and beyond. We hope you find some time to enjoy and relax in between keeping busy.
